St. Petersburg Paper Sees No Prospect of Intervention by Any of Powers.

UNITED STATES TOO BUSY

Frances Desires Peace, but Will Not Make Overtures for Settlement of the Diffienity.

St. Petersburg. Sept. 92, 7:30 a. m .-Reports of impending intervention by the powers to end the war are considered today by the Nevoe Vremya, which says there is no prospect of any such action by France, which country would sincerely like to see pence. The paper says it would rather that Germany should undertake the task of separating the combatants, while Germany has not the same material interests to be affected as France and the United States.

On the other hand, the Novoe Vrem ya continues, America is entirely too busy with the national election to undertake such a daring task, so that Russia may as well look forward to the conclusion of the war without prospect that any world power will even attempt to interfere.

CAMERA IN CANE.

Makes Pictures Without the Consen of the Subject.

It used to be next to an impossibility to secure a photograph of any notable person without having first obtained his consent to pose for the picture, and consequently if a dislike was expressed to such a proceeding the artist was obliged to give up his plans. But with the introduction of

THE CANE CAMERA.

the little folding cameras and more sensitive plates and films it is an easy matter to obtain a picture, either with or without the consent of the objec-

This has resulted in a feeling of dislike for the "camera flend," as he is sometimes called, and has perhaps led to the designing of a rather unique scheme to secure pictures on the quiet. No one would suspect an innocent looking walking stick of concealing a photographic lens, shutter and roll of sensitized films, and yet that is just what this cane is designed to do. The artist has shown a portion of the head cut away to expose the interior mechanism, illustrating the manner in which the film is wound over the rollers to bring it in position for use at the rear of the lens. It is intended to make provision for loading and unloading the camera by daylight, and quite a respectable looking picture can be obtained with it in the hands of a practiced operator.

This cane camera is the invention of Emile Kronke, Dresden, Germany.

Walking For Appendicitis.

German medical journals are recommending a new and peculiar remedy for appendicitis, the employment of which, it is declared, will obviate the necessity for the use of the knife in the great majority of cases. This remedy consists in walking on all fours twenty minutes four times a day. A contemporary states that this method is not only original, but almost aboriginal. However this may be, the method is certainly worthy of consideration. This method of treatment operates by strengthening the abdominal muscles. It is claimed that a well known German diplomat has been recently cured of chronic appendicitis by this method.

PSORIASIS AND ECZEMA

Milk Crust, Scalled Head, Tetter, Ringworm and Pimples

COMPLETE TREATMENT, \$1.00

For Torturing, Disfiguring Humours, From Pimples to Scrofula, From Infancy to Age.

The agonizing itching and burning of the skin, as in ecsema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants, and anxiety of wornout parents, as in milk crust, tetter and salt rheum -all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Pills are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures and humour remedies of the civilized world.

Complete treatment for every humour, consisting of Cuticura Soap to cleanse the skin, Cuticura Ointment to heal the skin, and Cuticura Resolvent Pills to cool and cleanse the blood may now be had for one dollar. A single set is often sufficient to cure the most torturing, disfiguring, itching, burning and scaly humours, eczemas, rashes and irritations, from infancy to age, when all
